BASIC-ABSTRACT:

Compsn. contains pure olive oil and pure beeswax as the only two or as the two principal ingredients. Pref. 100 pts. of olive oil are used for each 10 pts. of beeswax. The compsn. may also contain one or more aromatic plant oils, such as lavender, lavandin, rosemary, thyme, juniper and juniper wood oils. Pref. 1 pt. of aromatic plant oils is used for each 100 pts. of olive oil and 10 pts. of beeswax.

USE - Treatment of dermatitis and dermatoses of diverse origins (e.g. infectious, parasitic, nervous tumoural, allergic, lice etc.), contact or radiation burns (e.g. sunburn), sores, injuries, lesions, wounds, dermatomycoses, localised pruritis, insect bites and hematoma resorption. The compsn. may be used for hygiene or prophylactic; cosmetic or health and beauty purposes and also in sunburn protection creams. Its main activities are antiinflammatory, antiseptic, anaesthetic, antimycosis, regenerative and cicatrising.

## EQUIVALENT-ABSTRACTS:

A dermic and dermatological ointment with a broad spectrum of activity and containing, as active ingredients, olive oil and beeswax, characterised in that the olive oil and the beeswax of which it is composed are, respectively, virgin olive oil and virgin beeswax, in proportions of 100 parts of virgin olive oil to 10 parts of virgin beeswax, and in that these substances constitute the only two or the two main active ingredients of said ointment on a quantitative basis.
